

Tsunami Jetboat

Sea rollercoaster!!!

A great discharge of pure adrenaline will put your senses to the test when you get on this fascinating boat propelled by water turbine engines that allow you to do really incredible maneuvers such as:

Thrilling speed

360 degrees turns

Tsunami dive

<p>Our huge 1200 horsepower diesel turbo engines are capable of flying across the ocean at over 90 km / h which are around 50 knots! Sit down, hold on and wait for the fun to begin.</p>	<p>This boat is able to practically fly by the sea and give spectacular turns of 180 and up to 360 degrees that will test the nerves of anyone. The fun begins.</p>	<p>And now, the maneuver that will leave you speechless the tsunami dive hence the name of our boats.</p>
---	---	---

Any boat can turn to the left and to the right, but ours have a new direction of maneuver:

DOWN! Our boat is the only one that literally plunges into the water.

Creating a wave that we have called **TSUNAMI**

which completely enters the boat leaving it completely flooded.
