

Luxury Day Sailing

(departs from Marina at 10:00 am, duration 6 hours approx)

For all you first time sailors out there, this is a chance to get your sea legs and learn from the experts. You'll appreciate the luxury and comfort of our Luxury French sailboats. Trust the tropical winds to carry you to whatever you are looking for - turquoise waters, secluded bays and picture perfect beaches. Before you set sail from Marina Vallarta, we'll offer an introduction on the essentials of sailing. Once the lessons are over though, the rest of the day can be as active as you wish.

Snorkel, Swim or Kick Back

The more adventurous of you can take the opportunity to swim and snorkel in beautiful Banderas Bay, and if the weather is right, we'll stop to explore a protected and secluded cove. For those who crave some downtime though, this is the perfect day to just lie back on one of our oversized cushions and bask in the tropical rays. Sip on an ice-cold drink, relax to the calming sounds of the ocean and the billowing sails as we cater to your every need.

Marine Life

Sailing is the ultimate way to witness wild dolphins, humpback whales, manta rays, and sea turtles in their natural habitat. Dolphins love to swim alongside a silently gliding sailboat, so if we're lucky enough to meet up with them, you'll delight in their antics as they jump and play in our wake. During the winter season (December to March) whales are also often spotted breaching or passing by the bow of the boat.

Catered Lunch & Drinks With lunch, snacks and all drinks all included, this wonderful day mixes the pleasures of sailing with absolute pampering. Vallarta Adventure's friendly crew scrupulously attends to every little detail to ensure that your sailing experience is the adventure of a lifetime. As always, group sizes are limited to ensure a perfect day, so don't miss this boat

What's Included
